TREATMENTS

Our SPA partner

The Cliveden Spa enjoys a partnership with OSKIA. This range of treatments has been designed to complement and accentuate OSKIA's multi-award winning nutritional skincare range. The holistic approach combines bespoke anti-ageing techniques, drawing on traditional knowledge such as acupressure, specialist massage, reflex and lymph drainage, as well as elements such as gentle enzyme and AHA peeling that will leave the skin, body and mind rejuvenated and glowing.

These treatments instantly boost skin health whilst improving tone and texture, and deliver an immediate natural glow and lasting benefits. They build on OSKIA's unique approach to boosting skin health and improving the complexion through a combination of topically applied essential cell nutrients and pioneering beauty actives, along with bespoke facial massage techniques and equipment. These highly effective treatments will ensure that even the most tired complexions come alive and skin is left feeling radiant and luminous.

THE CLIVEDEN BODY COLLECTION

Inspired by two remarkable ladies synonymous with the history of this fabulous house, Anna Maria, the first 'Mistress of Cliveden' and Nancy Astor, perhaps its most famous chatelaine, we have created two fabulous fragrances that not only delight the senses but have provided the inspiration for our own bespoke collection of luxurious body products designed by OSKIA, the luxury British skincare brand. These scents reflect the combination of strength, subtlety and femininity of the women who inspired them.

All products within the the Cliveden Body Collection retail range are vegan, developed for spa-quality home pampering.

THE ANNA MARIA FRAGRANCE

Black rose & cedar wood, calming & balancing.
George Villiers, the second Duke of Buckingham, built Cliveden as a monument to his affair with Anna Maria. Even against the lush and licentious backdrop of the Restoration court, Anna Maria stood out for her ability to cause scandal and her willingness to spill blood in defence of her honour. Hers was a world perfumed with the dark woody smells of cedar wood, spices, earthy patchouli, musky sensuous roses, and enlivened by the tang of oranges - a favourite snack of audiences in London's theatres where so many women of Anna Maria's generation went to find fame, or infamy.

THE NANCY FRAGRANCE

Fruit blossom, jasmine, wild mint & lily. Refreshing & stimulating. Nancy Astor was the American whose energy and vigour would make her the first woman to win and take a seat in the House of Commons almost 100 years ago! On inheriting Cliveden, Nancy banished what she described as the 'splendid gloom' of her predecessor's décor and replaced it with the bright chintzes and fresh-cut flowers inspired by her beloved Virginian childhood. From her piercing blue stare to her acerbic humour, everything about Cliveden's final chatelaine was fresh, bracing and poised...
