BAR MENU

Since the turn of the 20th century, hospitality has grown considerably, with hosts competing to offer the very best to their guests. The ingenious minds of the prohibition era bartenders - who worked without any recipes - coupled with customer driven demand for higher quality products, saw the 20th century become the age of innovation and flair in the cocktail circuits.

Contemporary bartenders have the luxury of drawing on these established classics, whilst building on them to develop drinks for the modern customer.

Here at Cliveden, we love to reflect on and celebrate history, indulging in that nostalgic era using only the finest ingredients. Please savour our signature cocktails as you sit back, relax and take in the surroundings, as past esteemed guests certainly would have.

HISTORICAL COCKTAILS

- ASTOR** 24
The Botanist, Mount Gay Black Barrel, Fresh Lemon, Gomme Syrup and Orange Juice
This recipe was adapted from 'Old Waldorf Bar Days' where the drink was accompanied by the following notation, "Perhaps named after John Jacob of that name; perhaps after William Waldorf, his cousin; however, chances are, it was originated either at the old Astor House or the Astor Hotel, and took its name from its bar of nativity".
- ASTORIA** 24
Noilly Pratt, Haymans Old Tom Gin, Regans Orange Bitters
A reverse martini, if you will. Light enough for warm weather but with just the right amount of impact to displace a white wine on your go-to list. As noted in the The Waldorf Astoria Bar Book, it was "named after the big annex to the old Waldorf which, at its opening in 1897, became the main part of the establishment".
- CHINESE** 24
Mount Gay Black Barrel Rum, Pierre Ferrand Dry Curacao, Maraschino Liqueur, Grenadine, Angostura Bitters
A version of this cocktail dates back to the late 19th century, first found in 1896's French cocktail book, 'Bariana' by Louis Fourquet. A popular favourite, it was featured in most of the major cocktail books of the early 20th century. The mysticism of the Orient was a popular theme of the era, with many houses including a Chinese-themed room.

MARTINIS

- With a history that is not fully known but generally seen in literature from the turn of the 20th Century, this now-iconic drink has many derivations, but nothing beats a well-made Martini. We make our Martini dry, letting the Vermouth caress the ice, but nothing more. Our preferred pour is either Belvedere Vodka or Sipsmith Gin, but please let us know if you prefer yours with another.
- BELVEDERE VODKA/SIPSMITH GIN MARTINI** 21
Over the years, the word 'Martini' or the suffix 'tini' has been used to create a whole range of drinks. We have selected a few we enjoy.

CLASSIC COCKTAILS

- MOSCOW MULE** 20
Belvedere Vodka, Ginger Beer, Fresh Lime Juice
The story of how the Moscow Mule came to be invented is debated, but the most well-known account was that the cocktail was invented in 1941 by John G. Martin. The Mule was born in Manhattan but "stalled" on the West Coast for the duration. The birthplace of "Little Moscow" was in New York's Chatham Hotel. That was back in 1941 when the first carload of Jack Morgan's Cock 'n' Bull ginger beer was riling over the plains to give New Yorkers a happy surprise...
- MARTINEZ** 21
Hendricks Gin, Martini Rosso, Maraschino, Bitters
Before the Martini, there was the Martinez. The story being that it was created by "Professor" Jerry Thomas (regarded as the 1st celebrity bartender in the 1800's) for a patron travelling to Martinez, California.
- NEGRONI** 21
Campari, The Botanist, Martini Rosso
Named after Count Camillo Negroni in the 20's. A regular in the then-Casoni Bar, the Count asked for an Americano 'with a bit of kick'. The bartender added a measure of gin, Patrons would ask for 'one of Count Negroni's drink' and this just became Negroni.
- BOULEVARDIER** 21
Monkey Shoulder, Campari, Martini Rosso
The Boulevardier is one of the most timeless Negroni variations & it actually predates its gin fueled cousin. You can thank Prohibition for its creation, back when it was the signature drink of Erskine Gwynne, expatriate writer, socialite and nephew of railroad tycoon Alfred Vanderbilt.
- ROB ROY** 21
Glenfiddich 12, Martini Rosso, Bitters
The Rob Roy is a cocktail created in 1894 by a bartender at the Waldorf Astoria in Manhattan, New York City. The drink was named in honor of the premiere of Rob Roy, an operetta by composer Reginald De Koven and lyricist Harry B. Smith, loosely based upon Scottish folk hero Robert Roy MacGregor.
- MANHATTAN** 21
Woodford Reserved, Martini Rosso, Bitters
Legend has it that this was created at the Manhattan club in the early 1870's for a gala banquet being hosted by Jennie Jerome (Sir Winston Churchill's mother). Try a twist on a classic with Mount Gay Black Barrel Rum.
- SIDECAR** 22
Rémy 1738, Cointreau Noir, Fresh Lemon Juice
The Ritz Hotel in Paris claims origin of the drink. The first recipes for the Sidecar appear in 1922, although the exact origin is unclear, but it is thought to have been invented around the end of World War I in either London or Paris.
- CHURCHILL** 22
Bruichladdich The Classic Laddie, Martini Rosso, Cointreau, Fresh Lime Juice
Created for Sir Winston Churchill on one of many visits to the Savoy.
- RÉMY FRENCH 75** 25
Rémy VSOP, Fresh Lemon Juice, Laurent-Perrier, La Cuvée Brut
There are many stories about this drink, the most prolific is that it was created in 1915 at the New York Bar in Paris by barman Harry MacElhone. The combination was said to have such a kick that it felt like being shelled with the powerful French 75mm field gun.

BELVEDERE VODKA

50ML

BELVEDERE VODKA

15

Belvedere has been pioneering the luxury vodka market since its launch in the USA in 1996, hailing from Poland, where vodka production can be traced back over several centuries.

The vodka is made only using Dankowskie Gold Rye and is distilled 4 times in small batches ensuring the optimum clarity, quality and character is maintained. The Rye gives a velvety smooth texture, subtle sweetness and a clean fresh finish.

They are also fortunate to own their own water supply. Careful management of this includes it being filtered up to 11 times to make it soft and pure.

Nose: Faint hint of vanilla along with some gentle, soft cream characteristics.

Palate: Full and round with a medium-bodied weight and rich, velvety texture. Some vanilla swaying between sweet and savory with a hint of white pepper and spice.

Finish: Good length with notes of almond, clotted cream and some faint almond and Brazil nut characteristics.

VODKA

The name “vodka” is a diminutive form of the Slavic word voda (water), interpreted as ‘little water’. Traditionally, vodka is made by the distillation of fermented grains or potatoes, though some modern brands use other substances, such as fruits or sugar.

The invention of gin in the mid-17th century is often falsely credited to Dutch physician Franciscus Sylvius, although the existence of genever is confirmed in Philip Massinger's play *The Duke of Milan* in 1623, when Sylvius would have been about nine years old. It is further claimed that English soldiers who provided support in Antwerp against the Spanish in 1585, during the Eighty Years' War, were already drinking genever for its calming effects before battle, from which the term "Dutch courage" is believed to have originated.

Gin is a spirit which derives its predominant flavour from juniper berries, every gin producer will then select a number of botanicals to bring individual flavour and style. Popular botanicals and/or flavouring agents for Gin often include citrus elements, such as lemon and bitter orange peel. Each distillery will choose various combinations and other flavours which may include anise, angelica root, orris root, liquorice root, cinnamon, almond, cubeb, savoury lime peel, grapefruit peel, dragon eye, saffron, frankincense, coriander, nutmeg, cassia bark and many others, making each gin unique and interesting.

MARTIN MILLERS (40%)

First distilled in 1998, this super premium London dry gin has an amazing story behind it. HAYMAN 'OLD TOM' (40%)	15
After the government slapped distillers and drinkers alike with a punitive set of high tariffs and taxes back in the 18th century, pub owners would hang a plaque painted with a black cat – an Old Tom – outside of their establishments to signal the availability of a very special style of not-entirely-legal liquor. Gin lovers could pop money into a slot beneath the cat's paw and out would come pouring a shot of homemade gin, distilled in a style now known as Old Tom. A slightly sweeter gin than London dry.

GIN MARE (42%)	18
Made in the small Spanish fishing town of Vilanova, just outside the city of Barcelona, Gin Mare epitomises the Mediterranean spirit. Crammed with local Mediterranean botanicals and positively singing a pretty little sunshine ditty, it's a true mark of luxury, with rich oils filling the cheeks and sending the drinker on something of an adventure.	

"They all thought she was dead; but my father he kept ladling gin down her throat till she came to so sudden that she bit the bowl off the spoon." - George Bernard Shaw 'Pygmalion'

WHISKY

The 3 ingredients needed to make whisky are water, malt and yeast. The processes are the same for each distillery, the fermentation of malt to create wort (basically beer) which is then distilled in copper stills. The size and shape of the still is a major variation between distilleries, with tall stills giving lighter spirits like Glenmorangie, and short stills giving heavier liquids like Glenfiddich. The maturation process in oak, for a minimum of 3 years (by law), is what gives the spirit its flavour and colour.

GLENFIDDICH

Built by William Grant in 1886, it has been a distillery of innovation and passion which has led to their whisky taking its place as the worlds most awarded whisky.

LOUIS XIII

One Century in a bottle, each decanter takes 4 generations of cellar masters over 100 years to craft. LOUIS XIII is a blend of up to 1,200 eaux-de-vie, the youngest of which is at least 40 years old and created exclusively with grapes from Grande Champagne, the most prestigious region of Cognac.

Rich in aromas of myrrh, plum, honey and jasmine with a complex warm, harmonious and spicy palate culminating in an extremely long finish of an hour or more, LOUIS XIII is the King of Cognacs.

COGNACS

Named after the town Cognac, the wine growing region on the west coast of France to the north of Bordeaux. The region has an AOC (appellation d'origine contrôlée) meaning that only Brandy made under the strict rules of the region may bear the name Cognac. The specified grape is Ugni Blanc and must be twice distilled in copper pot stills and aged for at least 2 years in oak casks from Limousin or Tronçais.

Here at Cliveden we understand that quality can take time and that the best results come to those who wait. This is why we have chosen to showcase the Cognacs of Rémy Martin.

Founded in 1724, Rémy Martin source its grapes exclusively from fine Champagne, the most sought-after region of Cognac, and have never compromised on the pursuit of excellence.

RÉMY MARTIN

50ML

RÉMY MARTIN VSOP

18

Dominant notes of vanilla thanks to longer ageing in French Limousin oak barrels, followed by ripe apricot, baked apple, and an elegant floral note. A perfect harmony between the firm character of ripe fruit and subtle notes of liquorice, offering a great complexity of elegant and powerful aromas. Well-balanced, structured, and multi-layered, it combines the roundness of ripe fruit with a silky texture.

RÉMY MARTIN 1738

22

Generous notes of plum and fig marmalade rounded out by intense oaky notes of toffee and toasted bread. The mellowness of butterscotch and baked spices with hints of dark chocolate. Exceptionally round with a creamy aftertaste and a concentration of nutty aromas imparted by a careful blend of eaux-de-vie aged in toasted French oak casks.

RÉMY MARTIN XO EXCELLENCE

43

Wide spectrum of aromas of late summer fruit, combined with rich floral notes of white flowers such as jasmine. The perfect expression of Fine Champagne opulence on the palate with mature flavors of juicy plums and candied oranges, with a hint of hazelnuts and cinnamon. Velvety, rich, and lingering.

RÉMY MARTIN CENTAURE DE DIAMANT

ARMAGNACS

Produced in the Armagnac region in Gascony, southwest France, this distinctive brandy is distilled from wine typically made from a blend of grapes including Baco 22A, Colombard, and Folle, blanche and Ugni blanc, traditionally using column stills rather than the pot stills used in the production of cognac; the resulting spirit is then aged in oak barrels before release. The overall volume of production is far smaller than cognac, and therefore is less familiar outside Europe.

CALVADOS

Unlike Cognac and Armagnac, Calvados uses apples as opposed to grapes to make brandy, and originates in the Normandy region of France. The apples, (producers can use over 100 varieties), are made into a dry cider, then distilled into an eau-de-vie. Like Cognac, Calvados is protected by an AOC, and within this area is a stricter AOC Pays d'Auge.
